

Dr. Antonio Moretti

Country: Italian; **Birth:** Bari, 01.09.1960

English and French read, written and spoken fluently.

Professional Appointments

Current Position: Senior Research at ISPA (Institute of Sciences of Food Production) - CNR (National Council of Research), Bari, Italy.

2013 Enabled as **Full Professor of Plant Pathology** by National Academic Scientific Evaluation system 2012 of the Ministry of University and Research

2007 to date Pointed as **Senior Research** at ISPA

1998-2007 Permanent position as Researcher to the **ITEM** (Istituto tossine e micotossine da parassiti vegetali), since 2001 become **ISPA**

1994-1998 Obtained a position for 4 years as Researcher to the **ITEM**

1989-1993 Fellowship to the **ITEM** titled "Chemical and genetic analysis of toxigenic fungi and their mycotoxins"

1988 Master in Agricultural Sciences "Università degli studi" Bari.

H-index of Antonio Moretti

30 (Source: Institute for Scientific Information (ISI) Web of Science);

34 (Source: Google-Scholar).

Project responsibility

1999-2003 National Vice-delegate for the COST Action 835 "**Agriculturally important toxigenic fungi**" of European Union, being active in the Working groups "Biodiversity, Phylogeny, and Taxonomy of Toxigenic Fungi" and "Genetics and Diagnosis of Toxigenic Fungi" and "Ecology and Pathogenicity of toxigenic fungi"

2000-2005 Responsible for the Institute of the EU project of the Fifth Framework "Quality of life and Management of Living Resources" titled "**Sustainability, product safety and quality in cereals: development of novel quantitative models for risk assessment for mycotoxicogenic Fusarium species**"

2004-2006 Scientific responsible within the 6th program Food Quality and Safety EU "**Characterize and utilize mating type genes in biocontrol strains to improve mycoherbicide efficacy**" (Specific Targeted Research Project Food-CT-2003-001687) of the workpackage "The identification of molecular markers to recognize biocontrol agent strains after their release into the soil"

2006-to 2007. Responsible for ISPA of the **First** year Project "**Evaluation of fungicide efficacy on wheat kernels for the reduction of Fusarium graminearum incidence on Head Blight**" with funding of and in cooperation with Syngenta Crop Protection S.P.A.

2007-2010 Responsible for ISPA of the MUR Project **AGROGEN** (Laboratory of GENomics for traits of AGROnomic importance in durum wheat: identification of useful genes, functional analysis and assisted selection by biological markers for the development of the national seed chain).

2008-to 2009. Responsible for ISPA of a the **Second** year Project "**Evaluation of fungicide efficacy on wheat kernels for the reduction of Fusarium graminearum incidence on Head Blight**" with funding of and in cooperation with Syngenta Crop Protection S.P.A.

2009-to 2011 Responsable for ISPA of the EFSA project "Modelling, predicting and mapping the emergence of aflatoxins in cereals in the EU due to climate change"

2009-to date Support leader of WP6 "Advanced technologies for diagnostics, quantitative detection and novel approaches to control toxigenic fungi" within the *Large collaborative project* of European Union "**MYCORED**" "Novel integrated strategies for worldwide mycotoxin reduction in food and feed chains", KBBE-2007-2-5-05 of 7th Framework

2011-to date Responsible of the WP Study of *Alternaria* biodiversity for the improvement of quality and safety of cereal chain on the behalf of the National Project Integrated Knowledge for the sustainability and innovation of the *Made in Italy* Agro-food “CISIA”

2011-to date for ISPA Bari of the National Project “Strengthening of High Education in the cereal food chain for the development of Agro-food system in Southern-Italy” PON01_01145/F1 CUPB78F11000180005 ”ISCOCEM”.

2015-2017 Responsible of Bilateral Project CNR-CONICET (Argentina) “*Fusarium* species in cereals: ecophysiology on fumonisin production and its impact on food safety.”

2015- 2016 Responsible of the project “**Evaluation of fungicide and biostimulant efficacy on maize plants for the reduction of mycotoxin contamination of maize kernels**” with funding of and in cooperation with Adama Makhteshim LTD.

Main Project Participation.

2005-2007 Participation in the MYCO-GLOBE (Integration of Mycotoxins and Toxigenic Fungi, Research for Food Safety in Global System), Concerted Action of the European Union, during which is member of the **European Delegation for two bilateral meeting** in New Orleans between European and US scientist working on **Mycotoxins and Toxigenic Fungi**: The EU-USA Bilateral Workshop on Toxigenic Fungi and Mycotoxins, held in New Orleans, July 5-7, 2005 at the USDA/ARS, Southern Regional Research Center; The EU-Australia Bilateral Symposium on Mycotoxins, held in Sydney, 15-17 February 2006, at Botanic Gardens Trust.

2000-2003 participation to the EU project “Early Detection of Toxigenic *Fusarium* species and Ochratoxigenic Fungi in Plant Products (“DeTox-Fungi” QLRT 1999-01380) of the V Framework

2004-2007 participation within the 6th program EU “**Food safety and quality monitoring with microsystems**” (Integrated Project IST 2002-508774) of the workpackage “Microsystems technology solutions for rapid detection of Toxigenic Fungi and mycotoxins”

Main experiences abroad

1991 One year as visiting scientist to the National Centre for Agricultural Utilization Research, United States Department of Agriculture, Peoria, USA on “Genetics of *Fusarium* and sexual compatibility of the toxigenic population of *Fusarium*”.

1995 Period of 3 months as visiting scientist to the laboratory of Plant Pathology of the Institute for Comprehensive Agricultural Sciences, Faculty of Agriculture, Kinki University, Nara, Japan on “Molecular genetics of *Fusarium*” supported by a fellowship of Japanese Society for Promotion of Science.

2007 Invited for a period of **1 month** as visiting scientist at the National Centre for Agricultural Utilization Research, United States Department of Agriculture, Peoria, USA, in Robert Proctor lab working on "Screening Polyketide Synthase (PKS) Gene Expression in *Fusarium* Species".

2011 Invited for a period of **1 month** as visiting scientist at Department of Microbiology and Immunology- Section Mycology, Universidad Nacional de Río Cuarto, Río Cuarto-Córdoba-Argentina, in Prof. Sofia Chulze lab, on the behalf of the twinning project on mycotoxins Mycored-PAE between European Union and Argentina.

2012-2014 Invited 4 times for a period up to **1 month** as visiting scientist at Department of Food Safety & Quality Control di Pechino, Institute of Agro-Products Processing Science and Technology, della Chinese Academy of Agricultural Sciences (IAPPST-CAAS), China, in Prof. Yang LIU, on the behalf of High-end Foreign Experts Recruitment Program of the CAAS applied by the Prof. Y. Liu.

2014 Invited for a period of **1 month** as visiting scientist at the Seed Technology & Business, Department of Plant Pathology & Microbiology, Iowa State University, Ames, USA, in Professor, Gary Munkvold lab working on " Study of pathogenicity and genetic diversity of toxigenic fungal species belonging to *Aspergillus niger* complex occurring on maize".

Main Honors & Services

2006 Co-founder of International Society of Mycotoxicology (www.mycotox-society.org/) to which participate the main International experts of toxigenic fungi and mycotoxins.

2006 Organizer and Instructor in the International Fusarium Laboratory Workshop, held in Bari, at ISPA, 4-9 June 2006, and further in 3-8 June **2012**.

2006 Organizer and Instructor in the International “Detection techniques for mycotoxins and toxigenic fungi in food chain” held at ISPA in Bari, 2-6 October 2006 in the behalf of MYCO-GLOBE (Integration of Mycotoxins and Toxigenic Fungi, Research for Food Safety in Global System), Concerted Action of the European Union.

2008. Organizer and Instructor in the International ISM Training Course “Detection techniques for mycotoxins and toxigenic fungi in food chain” held at ISPA in Bari, September 29th - October 3rd 2008

2010. Organizer and Instructor in the International Training Course MycoRed “Detection techniques for mycotoxin and toxigenic fungi in the food chain” held at ISPA in Bari, October 4th- October 8th 2010

2012 Organizer and Instructor in the International Fusarium Laboratory Workshop, held in Bari, at ISPA, in 3-8 June **2012**.

2013-to date Member of Examination Commission of **Plant Pathology** course presso il Dipartimento di Scienze agrarie, degli Alimenti e dell'Ambiente, dell'Università di Foggia

2014 Chair and Instructor at Workshop-Training Course on “Toxigenic Fungi and Pathogenic Bacteria in Food Chain” held at ISPA in Bari, September 29 - October 3, 2014, Italy

2015 Chair of 13th European Fusarium Seminar, Martina Franca, Italy 10th - 14th of May

Member of organizing and scientific committee and invited speaker in various international meetings. He was also invited as teacher at various Universities.

Referee of various international journals as “*Applied and Environmetal Microbiology*”, “*European Journal of Plant pathology*”, “*Food Additives and Contaminants*”, “*International Journal of Food Microbiology*”, “*Journal of Agriculture and Food Chemistry*”, “*Journal of Food Micology*”; “*Mycotoxin Research*”, “*Plant Pathology*”; “*Syddowia*”, “*Toxins*”, “*World Mycotoxin Journal*” and many others.

1991-to date: dr. Moretti partecipated to several “short stages” in Italia as well as abroad for International cooperative research, supported by international bilateral project, European Projects, Specific Support Action 835 of EU with several scientists of International fame, in the field of mycology and molecular and biochemical characterization of toxigenic fungi. Main international cooperative research activities in the past and now running: 1) Jerzy Chelkowski, Plant Genetics, Polish Academy of Sciences, Poland; “Toxigenic and pathogenic fungi in crop plants and agricultural commodities” ;2) Gary Munkvold, Iowa State University, Iowa “Toxigenic *Fusarium* species on Maize” 3) Laszlo Hornok Agricultural Biotechnology Center, Godollo, Hungary,: “Molecular diagnosis of agriculturally important toxigenic fungi” 4) Seiji Ouchi, Institute for Comprehensive Agricultural Sciences, Faculty of Agriculture, della Kinki University, Nara, Giappone “ Molecular genetics of phytopatogenic fungi” 5) Anne Desjardins, National Center for Agricultural Utilization Research, United States Department of Agriculture, Peoria, USA: “Genetics of toxigenic *Fusarium* species” 6) Robert Proctor, National Center for Agricultural Utilization Research, United States Department of Agriculture, Peoria, USA: "Screening Polyketide Synthase (PKS) Gene Expression in *Fusarium* Species" 7) Sofia Chulze, Department of Microbiology and Immunology, University of Rio Cuarto, Argentina: “Design and implemantation of a quality management programme in the post-harvest maize kernel storage”. Twinning Mycotoxin Projects UE/Argentina; 8) Yang LIU Department of Food Safety & Quality Control of Beijing, Institute of Agro-Products Processing Science and Technology, of Chinese Academy of Agricultural Sciences (IAPPST-CAAS), China.

1995-to date: tutor of several visiting scientists of our Institute within international research exchange programmes, from: Algeria, Argentina, Egypt, Iran, Japan, Moroc, Poland, Russia, Serbia, Slovakia, Tunisia, Turkey, USA.

1995-to date: Constantly invited by National and International Institutions for Seminar and Lectures on Toxigenic Fungi and Mycotoxins and to plenary lectures in International Meetings.

Main fields of interest of Dr. Antonio Moretti, are the genetic and toxinogenic characterization of main *Fusarium* species pathogens of agriculturally important crops and the study of their diversity and pathogenicity.

Research activity of Dr. Moretti is well documented by **97** papers on International Journals, **11** book chapters ISI, **6** National Journals and hundreds of abstract and proceedings of National and International scientific meetings.

Papers printed on JCR scientific journals.
